

STALMINE-WITH-STAYNALL PARISH COUNCIL

Update from the clerk 5th March 2026

Stalmine Play Ground Area

Playground inspections for February 2026

The report highlighted some of the posts and rails are coming away from the bark pit in January this repair has still not been repaired by Wyre, it is marked not urgent on the report. If it has not been repaired by March 31st I will chase Wyre.

Lengths Mans Repair's

The lengths man has repaired the raised bed at Moss Side Lane, and treated all the wood to protect it from the elements. He has treated the wood bench at Moss House Lane, the large raised bed at Carr End Lane, and the bench at Wardleys. I have asked the lengths man to re-stain the gate at Hall Gate Lane, near the storage unit.

Wyre Borough Comms

I have had no response over the street cleaning at Old Tom's Lane, and the assets they hold for Stalmine and Staynall.

Lay-by Stricklands Lane

I have written to the LCC, and they wrote back with the reply:

We do not typically place parking restrictions in lay-bys or to prevent cars for sale and there are no specific signs that we can place that would be legally enforceable without introducing a Traffic Regulation Order and lengthy legal process. At this time, we are unable to prioritise our resources toward further restrictions here presently, and deterrent signs with no legal backing or permission are likely to be ignored.

Training

I have booked myself on a LALC training course for recruiting and retaining councillors, I will be attending the online course on Thursday 5th March.
